BRAWN and BRAINS

 **Blendtec®**

KITCHEN PREP TECHNOLOGY FOR TODAY'S CHEF! BLENDTEC INNOVATION PUTS YOU IN CONTROL

Designed with the chef in mind, the Chef blender offers an exclusive new interface that provides the user full control over the food preparation process.

The electronic controls save time by allowing the user to create and save specific blending cycles and use them multiple times.

And of course, it's a Blendtec, so you know you have plenty of power for any kitchen prep job.

- ▶ **1800 watts of power**
- ▶ **Blend, Chop, Grind, Mix, Whip and Puree**
- ▶ **Light touch chopping to high power blending**
- ▶ **New pour through lid design lets you add ingredients while blending**
- ▶ **Two different size jars (2 qt. and 3 qt.), with ounce and cup markings**
- ▶ **Add a sound enclosure for noise abatement in confined work areas**
- ▶ **Revolutionary new memory function enables you to save any manual operation**

Ability to handle all ingredients for delicate spreads, batters, salsas, sauces, dressings, desserts and more!

Touch Pad
